Military Fee Assistance Program FAQs

Please read through the following FAQs before completing your application.

Q: Is my child care program eligible to participate and receive funding for Military families?

A: To be eligible for our program you must be state licensed, with a compliant inspection history, and nationally accredited by one of the accreditation agencies approved by the Department of Defense. Per DoD guidelines, all families are required to use an accredited provider. In areas where there is a lack of accredited high quality care, families may be approved to use non-accredited providers on a case by case basis. All providers are welcome to apply, but family eligibility is what determines the final approval of fee assistance.

Q: What if my program is based at a school?

A: Child care programs based in schools are approved on a case by case basis for school aged care only. All programs must be located entirely on school property and staffed by school personnel. No unlicensed programs or camps held on school grounds are eligible.

Q: How much does Child Care Aware® of America pay?

A: Fee assistance provided by Child Care Aware® of America is calculated on an individual basis for each family based on family documentation. If a family is approved to receive fee assistance, Child Care Aware® of America will only be responsible for a portion of the family's monthly child care costs, and the family will be responsible for the remainder.

Q: What is the process for application and approval?

A: The family and provider have separate application and document review processes. The provider file must be complete before the family's file can be approved and fee assistance amounts can be determined. Once this has been completed, a certificate packet detailing approved fee assistance amounts and duration will be sent to the parent and provider via email. It will also include attendance sheets required for submission during the approved period.

Q: How do payments work?

A: All fee assistance payments will be processed directly to the provider and processed at the end of the month of care dependent on submission of completed attendance sheets. Child Care Aware® of America does not guarantee any payments until a final approval certificate has been sent to both the parent and provider. It is the responsibility of both the parent and provider to review all approvals made by Child Care Aware® of America of accuracy and report any inaccuracies to Child Care Aware® of America as soon as possible.

Q: What if I have multiple centers that would like to apply?

A: All locations must submit an application for each different physical address where care is provided.

Q: What is the MCCYN-PLUS Initiative, and how will it impact me?

A: The MCCYN-PLUS initiative is currently active in Maryland, Nevada, and Virginia. Unaccredited providers in these states must participate in their state's quality rating and improvement system (QRIS) in order to be eligible for military fee assistance, in addition to meeting the other program eligibility requirements. Providers will be required to demonstrate continuous improvement of their QRIS rating, and families who are not required to use accredited care will be referred to providers with higher QRIS ratings.

Q: Can I apply if do not have any Military families currently interested in or already attending?

A: Yes. All providers are welcome to apply to become a part of our preferred provider network. Your information will be stored in our system and any eligible families may be referred to you as needed.

Q: How often do I need to update my application/file with Child Care Aware® of America?

A: At a minimum application documentation needs to be updated annually. Dependent on state licensing schedules and rate changes Child Care Aware® of America may reach out to providers more frequently.

Q: Can I complete my provider application online?

A: Yes; however, additional written documentation will be requested to verify the information submitted.
